Notes:

- (1) The above data includes audits performed from October 1993 through June 2006 and responses from the field on the findings from those audits through July 2006.
- (2) FY 2006 is the second fiscal year in which an organizational unit must have all its high priority CASHE findings completed to be rated in good condition. This standard has been phased in since FY 2000 when an organizational unit could have up to five high priority findings and be rated in good condition. Each fiscal year since FY 2000 the good condition standard has been reduced by one high priority finding until it reached zero in FY 2005.
